

IMPORTANT NOTES

Accommodation space in school is limited and whilst every attempt to cater for everyone's wishes will be made the final accommodation plan will be produced so that the risk of turning people away is minimised. Please understand we are making use of school rooms, that all the accommodation involves at least one flight of stairs and some of it is a fair walk from centre library.

There are a very small number of large rooms available so if you are booking in a group of four or more people please indicate in the space below those that you wish to be together.

Please indicate on the form any people requesting single rooms. If we have a busy gathering and space is limited then those people who have not paid the single room supplement might find themselves sharing with contemporaries.

If you have contemporaries or friends with whom you wish to share please indicate below.

If you wish to camp or bring a caravan please contact John Golding directly.

If you wish to attend but do not wish to stay in school and require accommodation then please contact the local tourist information office (0845 601 8353).
